

iFrost Water Station

PURE DRINKING WATER & CHEWABLE NUGGET ICE!

Effortless

Capacitive touch icons offer intuitive effortless dispensing.

Advanced

Internal microprocessor controls and monitors system functions.

Smart

LCD Smart screen displays messages, system status, and service alerts.

Accommodating

Extra-large and well-lit, the 12-inch dispense area makes refilling even the largest containers a breeze.

Refreshing

Advanced reverse osmosis and multi-stage carbon filtration deliver a continuous supply of fresh, clean **ambient and hot drinking water as well as chewable ice.**

Clean

In-tank LED UV technology, anti-microbial surfaces, and no-touch filter changes keep the system **clean inside and out.**

Smart Technology That Engages and Informs

iFrost Water Station

PURE DRINKING WATER & CHEWABLE NUGGET ICE!

DESIGNED WITH YOU IN MIND

At Stratus, we believe that personal hydration products should reflect the people that use them, and the beauty, efficiency, and ease of use we all desire.

A BETTER WAY TO HYDRATE

Stratus' ice and water dispensers provide greater hygiene and increased sustainability compared to bottled and antiquated filtration options. The latest filtration and LED UV technologies provide a continuous supply of clean fresh, tasting water without the need for bulky 5-gallon or plastic single-use bottles.

ICE FOR EVERYONE

iFrost ❄️

Our iFrost model offers **nugget ice** alongside ambient and hot filtered water in a cooler-sized format, so you can enjoy soft, chewable ice without having to install a clunky commercial ice machine.
